- Maintain and manage pre-deployment database scripts for production environments to support seamless application releases.
- Fixed real-time production bugs, Enhanced performance. and improved user engagement.
- Improved page performance and response time by 35% through query optimization, caching, and backend refactoring.
- Wrote unit tests and handled continuous module enhancements.
- Worked closely with product stakeholders to release features.
- Designed and implemented multi-provider OAuth authentication (Google, Facebook, Apple, Twitter) ensuring secure user access.

- Built Email/Password, OTP, and SMS-based login & signup flow with secure validation.
- Built authorization and role-based access control systems to secure modules and user permissions.
- Implemented monetization systems: coins, rewards, memberships, refunds.
- Created role-based access control and admin moderation panel.
- Developed analytics dashboards with charts and tabular reports.
- Built social features: feeds, profiles, likes, comments, share, favourites.
- Implemented member chat and engagement systems.
- Developed service-selling modules (events, courses, memberships) and their management systems.
- Implemented member profile analytics and comparison systems based on sports statistics.
- Developed modules such as job vacancies, interview requests, favourites, and public profile features.

3) Skyline Web Solutions (Dec 2020 – May 2021)

Role: Web Developer Kanpur, U.P.

Responsibilities & Key Works:

- Worked as a web developer building and maintaining client websites, handling feature development, bug fixes, and support.
- Developed portfolio and business websites, Implemented CMS features, job listings, registration flows, and custom forms.
- Fixed UI/UX issues, resolved bugs, and handled client change requests.
- **Projects:** HP Consultant, Brillar Design, Adv. Vaibhav Dixit, Magic Web Services, Squarei3D

Projects

a) SOFAAB POS: (https://www.sofaab.store/) **(LARAVEL)**

Built Laravel-based POS system with modules for ORDER Management, SALES Management, Inventory Management, Staff Management, Cash Management, Attendance Management, Payroll Management, Payment Processing, role-based access control, reporting dashboards, and payment integrations. Implemented optimized database queries and scalable order processing modules.

b) Redwud Store (https://redwudstore.com/) **(LARAVEL)**

E-commerce features with admin panel, product management, user registration, and **CCAvenue payment gateway** integration.

c) CSV Comparison Tools (PHP)

(http://mwsserver.co.in/excel-comparison/index.php Or http://ribs.mwsserver.co.in/)

Developed CSV comparison tool that processes large datasets using rule-based validation and custom formula evaluation.

Strengths

- Continuous learner with a strong daily upskilling mindset.
- Proactive in adopting new technologies and tools.
- Strong debugging skills with ownership-driven delivery
- Experience in building scalable database structures

Hobbies

- Playing Games
- Watching Movies
- Listening Music
- Reading Articles & Blogs

Education

- Master of Computer Applications (MCA) | 2020
  Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow
  Maharana Pratap Engineering College, Kanpur
- Bachelor of Computer Applications (BCA) | 2018
  Indira Gandhi National Open University (IGNOU), Lucknow
  Harcourt Butler Technical Institute (HBTI), Kanpur
